

## How to Change Language on Amazon: A Step-by-Step Guide

Amazon, the e-commerce giant, offers its services in several languages to cater to a global customer base. Whether you've accidentally changed the language on your Amazon account or simply want to switch to a different language, this guide will walk you through the process of [how to change language on amazon](#) for both the website and the mobile app.

Changing Language on Amazon Website:

**Open Your Web Browser:** Launch your preferred web browser and go to Amazon's website ([www.amazon.com](http://www.amazon.com)).

**Log In to Your Account:** Sign in with your Amazon account credentials.

**Access Your Account Settings:** Hover over the "Account & Lists" tab located at the top right corner of the Amazon homepage. In the drop-down menu that appears, click on "Your Account."

**Language Settings:** In your Amazon account settings, find the section titled "Preferences." Here, you'll see a variety of settings you can customize.

**Change Language:** Look for the "Country/Region Settings" option, and click on the "Change" button next to it.

**Select Language:** A pop-up window will appear, allowing you to choose your preferred language. Scroll through the list and select the language you want to switch to.

**Save Changes:** After selecting your desired language, click the "Save Changes" button.

**Confirmation:** Amazon will confirm that your language settings have been updated. Click "Done" to exit the language settings menu.

Your Amazon website should now be displayed in the language you selected.

Changing Language on Amazon Mobile App:

To change the language on the Amazon mobile app, follow these steps:

**Open the App:** Launch the Amazon app on your mobile device.

**Log In:** Sign in with your Amazon account.

**Access Settings:** Tap on the three horizontal lines (hamburger menu) in the top left corner of the app to access the side menu.

Settings: Scroll down and find the "Settings" option. Tap on it.

Change Country/Region: In the "Country & Language Settings" section, you will find an option to change your country/region. Tap on "Change" or "Country & Language Settings."

Select Language: In the pop-up window, you'll have the option to change your language. Scroll through the list of available languages and choose the one you want.

Save Changes: Confirm your choice by selecting the language and tapping the "Save Changes" button.

Confirmation: Amazon will confirm that your language settings have been updated. Tap "Done" to exit the language settings menu.

The language on your Amazon mobile app should now be changed to your preferred one.

Changing Language on Kindle Devices:

If you're using a Kindle e-reader or Kindle Fire tablet, you can also change the device's language. Here's how:

Access Device Settings: On your Kindle device, tap the "Settings" or "More" option from the home screen.

Device Options: Depending on your specific device, find and tap on "Device Options" or "Device Settings."

Language and Dictionaries: Look for the "Language and Dictionaries" or "Language" option. Tap on it.

Select Language: You will see a list of available languages. Choose your preferred language from the list.

Confirmation: Confirm the language change, and your device will apply the new language settings.

Keep in mind that changing the language on a Kindle device may affect the language used for menus, navigation, and dictionary lookups, but it doesn't necessarily change the language of the content you purchase and read.

Conclusion:

Changing the language on Amazon is a simple process that can enhance your shopping and browsing experience on the platform. By following the steps outlined in this guide, you can

switch to a language that is more comfortable and convenient for you. Whether you're using the Amazon website, mobile app, or a Kindle device, customizing your language settings allows you to fully enjoy Amazon's services in your preferred language.
